139th PORTAGEX

"COME EXPERIENCE FAMILY FUN AT THE PORTAGE EX"

On behalf of the Executive, Directors and Staff of the Portage Industrial Exhibition, I invite you to join us in celebrating our **139th Anniversary**.

PORTAGEX holds the distinction of being Western Canada's oldest continuously running fair.

There is something for everyone at the fair - 4-H achievements, horse and cattle shows, family and children's entertainment, a petting zoo, midway rides and games of chance, displays of various nature, as well as food prepared by local non profit organizations. **COME OUT AND ENJOY A DAY AT THE FAIR!**

Our theme this year is **"Come Experience Family Fun at the Portage Ex"**. Our exhibition grounds have gone through major construction and change, but we as a volunteer exhibition board are striving to put on a fair just as we have in the past 138 years.

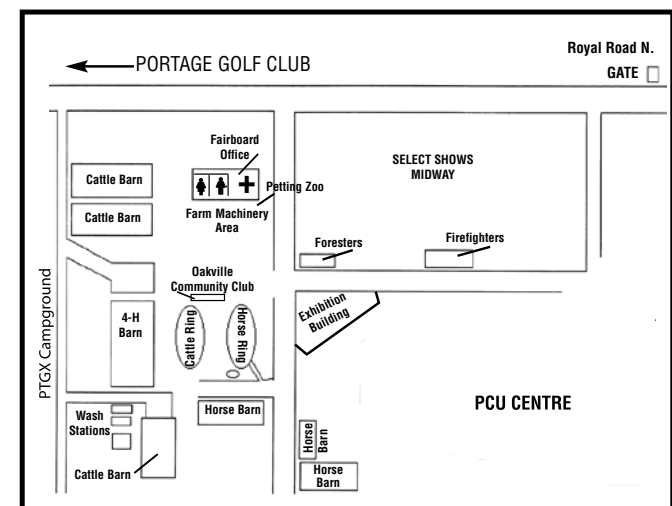

The entertainment line up for 2011 will feature a variety of entertainment for all ages. On Saturday evening come and enjoy a family night of Magic & Illusions with **CHRIS FUNK** and **DEAN GUNNARSON**. Saturday afternoon, **MARK MORISSEAU** and **THE PRAIRIE FIDDLERS** will entertain on James Grant's Stage. As well, **KEVIN JOHNSON** will play his music at James's Stage on Saturday afternoon and at the PCU Centre on Sunday prior to the evening entertainment. On Sunday Evening, **EMERSON DRIVE** will be on the mainstage with **BRYCE PALLISTER** opening for them. There will be a **DIAMOND DISC DOG SHOW** on Saturday & Sunday near the show rings and on Sunday afternoon the horse ring will be filled with excitement as competitors take part in the **RANCH RODEO**. **JAMES GRANT** with his **CARNIVAL CARAVAN** featuring **PINKY THE CLOWN** will magically draw you to his stage each afternoon and evening. **FROG'S HOLLOW PETTING ZOO** will be set up in the tent south of the office.

For your enjoyment **SELECT SHOWS MIDWAY** will be returning with rides for all ages.

We are proud of our exhibition grounds and facilities and wish to thank our many Volunteers, Corporate Sponsors and Donors for their continued support.

JOIN US IN THE CELEBRATION OF OUR 139TH PORTAGE FAIR!

DEFINITIONS

Arrangement means the use of oasis, wire, pinholder or other mechanics to hold materials in place. The mechanics must be hidden. Any filler and/or foliage is permissible in arrangements unless otherwise stated.

Filler is any foliage or small flower not detracting from the main arrangement.

Vase is a flower container made out of any given material, of which the greater dimension is vertical.

Bowl is a flower container made out of any given material, of which the greater dimension is horizontal.

Basket is a container made from any material with a handle over the basket and permanently attached to each side.

Spike is an upright stem carrying several flowers, usually with short pedicels such as gladiolus and snapdragons.

Bouquet is any number of flowers and/or foliage that can be held in one hand.

Bloom is a single bloom on a stem without buds or side shoots. Leaves may be left attached.

Stem or branch has one or more blooms, buds and side shoots.

Tints, tones and shades - tints are the light values of color - example, pink of red. Shades are the dark values of color - example, maroon of red. Tones are the colors not at their full intensity; it is the result of adding gray.

- Varieties in collections should be named with small, neat labels.
- All varieties of entries should be named if possible.

ROSES

Hybrid Tea - 3' to 5' high, producing large, well formed blooms, single, no clusters.

Floribunda - as high as a Tea, but is usually shorter and produces large clusters of flowers. A much hardier plant than the Tea.

Grandiflora - a cross between Floribunda and a Tea. Long stems and smaller blooms or clusters.

Shrub Roses - hardier, the bloom can be recurrent, some are one blooming period. Clusters, semi-double, double, single. Dwarf bush type.

Miniatures - bloom almost continually. Comes in Tea, Floribunda and climbers. Tiny or large, single, double or semi-double blooms. Very hardy.

CULTURAL DIVISIONS

Conditioning Cut Flowers and Foliage for the Flower Show

Most flowers should be cut under water and placed immediately into a container holding 5 - 7.5 cm (2 to 3 inches) of water. Flowers should be cut just before full bloom, otherwise they will not last the three days of a flower show. Flower beds should be checked daily, with careful attention to colour and shape of petals. For cut flowers to be shown in containers, near show day choose and mark the freshest stems with a bit of masking tape (since there isn't time to examine every bloom the evening before the show).

A pink to red bloom that begins to show a purplish tinge is on its way out, i.e. on petunias, roses, zinnias, stocks, larkspur, phlox, etc.

When cutting your flowers, a sharp knife is preferable to scissors. Place flowers in a container of warm water in the shade of a fence or shrub as you are cutting.

To prevent damage to blooms, have separate containers for different flowers. Save large juice cans and large glass jars for this purpose.
